# EASY EDUCATION IN SHOOTING

## The EASY way to develop a new generation of responsible shooters

Crosman has long supported shooting safety. We offer airguns, ammunition, archery and accessories at reduced rates to help qualified instructional groups start and build effective shooting programs.

Crosman makes it EASY to begin, EASY to reorder and EASY to keep developing safe shooters.

### EASY works three ways:

- » Use it simply to select products for use as teaching tools.
- » Use it in conjunction with the BIKATHLON™ Program.
- » Use it in conjunction with the CHALLENGE PROGRAM, to help your organization raise funds, boost membership and enhance community relations.

### Qualifying is EASY

Your shooting development group must be non-profit and affiliated with a bona fide organization such as Boy Scouts of America, 4-H, Future Farmers of America, PAL, Jaycees, JOSP, Exploring, American Legion, Isaac Walton League, Big Brothers/Big Sisters, JROTC, JAKES, Ringnecks, Venturing, VFW, NRA, Royal Rangers or IHEA. You must apply each year to participate.

### Getting started is EASY

As an EASY participant, you can choose from different kits. Each kit contains one Crosman airgun or bow and a selection of ammunition and accessories.

Crosman bears most of the cost for these kits, keeping your price reasonable. This allows your program to get up and running with minimum cash outlay and ensures a good, safe start for entry level shooters.

### Ordering is EASY with the enclosed order form

Just indicate the kits you've chosen and send it to us in an envelope with the payment and proof of your non-profit status. We must receive payment before orders can be shipped. MasterCard, Visa, Discover, and American Express from your organization are accepted. If shipped to or paid by an individual, additional documentation may be necessary. We'll send you a re-order form so you can get more ammo and targets as needed. A variety of accessories are also available.

### The BIKATHLON™ shooting event

A favorite with young people across the country, Bikathlon was developed by Crosman in 1987. Using bicycles and CO<sub>2</sub> powered airguns, these popular events offer a fun and exciting test of participants' riding and marksmanship skills.

Your organization can conduct its own BIKATHLON™ shooting event as a fund raiser, membership drive or simply for the fun of it. Detailed information on how to set it up is available from Crosman Shooting Services at 1-800-724-7486, ext. 3101.

## The Fund Raising CHALLENGE PROGRAM

A great way to generate extra income for your organization and to create interest among prospective new members. With the CHALLENGE PROGRAM, qualified groups set up shooting booths at fairs, picnics, sporting events and other community functions as an exciting and interactive way to raise funds. This program is for non-profit organizations only. Contact the Crosman Shooting Services Coordinator at 1-800-724-7486, ext. 3101 to discuss your groups needs. (Not to be used in conjunction with any other airgun products or manufacturers. There may be further limitations on these programs. Please call for details.)

### Portable Airgun Range

Crosman's customized portable airgun ranges are another great way to generate extra income for your organization, as well as create interest among prospective members. With its easy assembly and practical traveling gear, the Crosman range is fun and hassle-free. It comes in three different sizes, or pieces can be purchased individually for your organization's specific needs. See page 10 for more details.

### Target Pistols

The 2300S, 2300T and 1700P are competition pistols ideal for clubs and organizations. They offer instructors a teaching tool with many of the high end features used by the industry's top competitive shooters. See pages 5 and 6 for more details.

### 10 Rules of Airgun Safety

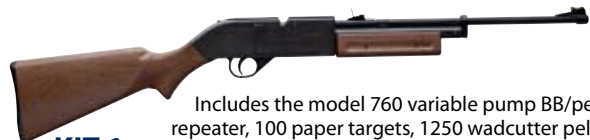

1. Always point an airgun in a SAFE DIRECTION.
2. Always treat an airgun as if it is loaded.
3. Always wear shooting glasses to protect your eyes.
4. Always keep an airgun unloaded until ready to shoot.
5. Always keep an airgun "ON SAFE" until ready to shoot.
6. Always keep your finger off the trigger and out of the trigger guard until ready to shoot.
7. Always be sure of your target and be sure your target has a safe backstop.
8. Always check to see if the airgun is "ON SAFE" and unloaded when getting it from another person or from storage.
9. Always read and follow all instructions in the owner's manual and know how your airgun works before using it.
10. Always store an airgun in a safe place so that it cannot be used by anyone unauthorized to use it.

**⚠ WARNING:** NOT A TOY. ADULT SUPERVISION REQUIRED. MISUSE OR CARELESS USE MAY CAUSE SERIOUS INJURY OR DEATH.

**⚠ WARNING:** LEAD AIRGUN AMMUNITION CONTAINS A CHEMICAL KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER AND BIRTH DEFECTS (OR OTHER REPRODUCTIVE HARM). DO NOT INHALE OR PUT PELLETS IN MOUTH. WASH HANDS AFTER HANDLING
